

Oct 11th Main Meeting Show & Tell

Bob Long scrolled this state of Michigan pc. from Oak. He also made this 3D name from Poplar. Great job!

John Philips made a bowl from Norfolk Island Pine at the last Turners meet.

Harry Nelson made this great educational toy. It's a clock with moveable pcs.

Denny Wetter made a great jig for making tenons on the tablesaw.

John Philips describes a jig he made for cutting grooves on a recent chalice project.

John Slezaks lovely wife stepped up to the plate and describe John's jig for cutting an angle on his laptop box and another for cutting angles on his tale legs. What a wife! Kudo's to her and her great presentation.
