

## Nov 8<sup>th</sup> Main Meeting Show & Tell & Winners

Paul Piehl has turned some pens on his lathe. The pictures here really do not do justice to fine craftsmanship in these. In fact they are so good, this editor had to scarf one up before the meeting was over.

John Philips brought in these very nice Marquetry veneers. They have been very well done, even shadowing created on the edge by dipping the edges in hot sand before gluing them in.

President Denny Wetter won the raffle prize of a Black & Decker sander.

Vince Patricelli thought he won the glue as the door prize but it really went to Bob Long. Sorry Vince.

Gene Mathes won a door prize of a "SawStop" cap but already had been given one. You'll have a warm head now Gene.

Merle Lilly won a door prize of a "SawStop" T-Shirt.
