

# The Hardwood Herald

January 2008

The newsletter of the Florida West Coast Woodworkers Club, Inc.  
An organization of men and women who are devoted to increasing their skills in woodworking.

There were 50 present at the December Christmas dinner.

## Letter from the President

Happy new year to all! Thinking back to last year, and what a great year it was, especially at FLORIDA WEST COAST WOODWORKERS CLUB INC. We have great members who gladly give of their time, talent, and resources. They share their love of woodworking with all in the club with presentations at our meetings show and tell program. With the great number of toys produced for the toys for Christmas program and with their willingness to help others, by phone, or by visits when questions or challenges are presented. Each helping in their own way with their special talents. The enthusiasm really is infectious.

There are some changes taking place in 2008, we have a new meeting place, ROBERTS HARDWOOD, at 719 Cattleman Rd. Sarasota.

What a wonderful 25 years for the club most of them with Dene and Harry Nelson, so many fond memories and such generous hospitality.

I am looking forward to a great year, with the new location, The State fair coming up, new presentations and new members, all of bringing new talents and challenges.

The December Show and Tell Award was again postponed until the January meeting. If you brought something to show in October or November or donated something for the Holiday Party Auction, you are eligible for this drawing.

KEEP MAKING GOOD SAWDUST  
John Slezak
