

## Shop Meetings and Turner's Meetings!

**THE SHOP MEETING's** are always well represented. It's our opportunity to snoop, look at great tools and projects, fellowship with our friends and enjoy our hosts invitation to his shop. Good food always abounds and we hope to have some great nights ahead in the coming year. Sign-up and share your shop with us.

**THE TURNER'S MEETING** is place where all can come and enjoy the camaraderie, learn a new skill or for beginners, learn how to operate a lathe. Most who attend have some level of experience an are more than willing and able to help us "newbies" out. The art of turning is really a woodworking skill that we should all have. Countless bowls, pens, plates, vases, cups and you name it have been made from wood that has fallen down or been cast aside earmarked for the fireplace.

Take some time out of your schedule and attend this great meeting. Bring a project your working on that needs help, or suggest a topic for the next meeting. Better yet, demonstrate at the meeting how to do your favorite project. See you there!!
