

# The Hardwood Herald

June 2008

The newsletter of the Florida West Coast Woodworkers Club, Inc.  
An organization of men and women who are devoted to increasing their skills in woodworking.

There were many in attendance at the monthly meeting held at Robert's Hardwood on Cattleman Blvd.

## Letter from the President

The April presentation featured Harry Nelson and his great ideas for segmented turnings. I know some of you were inspired as the display of segmented items increased in May. Thank you Harry.

The May meeting was a joint effort with Adam Ross and Ed Goldberg demonstrating two ways to sharpen tools using basically the same holding jig. A friend of mine immediately purchased glass and built a jig to hold it using Adam's method of wet and dry fine grit sandpaper. Ed's method was also very interesting, using different grades of sharpening stones.

Thanks to both of you all of our tools should be a lot sharper.

The week of June 8-14, Joyce and I will be away. Our Uncle and his wife are being honored in a memorial service and will be buried with full honors at Arlington National Cemetery. During WWII Gene St. Charles landed on Omaha Beach and at that time he was wounded in battle.

Hope to be back for the turners meet on Monday. Have a great meeting and KEEP MAKING GOOD SAWDUST.

John
