

The Hardwood Herald

August 2008

The newsletter of the Florida West Coast Woodworkers Club, Inc.
An organization of men and women who are devoted to increasing their skills in woodworking.

Important Up Coming Changes

Hi everyone, We're are so excited about some upcoming changes that we feel will be great for our area.

With the new WoodCraft's Store opening we're sure to be in hot water with our spouses as we take our allowances and start buying stock in our most favored store. It's location is at 4456 Bee Ridge Road, which is in the Palm Plaza Shopping Center on the Southeast corner of Bee Ridge and McIntosh in Sarasota.

On September 11th we will move our monthly main meeting from Robert's Hardwoods to our new location at the WoodCraft store. John Slezak will give us and introduction to the store and it's employees.

The location of our August 25th Shop meeting has been changed and will now be held at Bob Eslinger's shop at 6921 Conestoga Place, which is located off of Honore Ave, 2.2 miles north of University Plaza.

The August Turning meeting will be held on Tuesday the 19th instead of Monday and will still be located at Denny Wetters house.

So, please remember these changes and let's start getting into our fall mode of turning wood, cutting timber, making something from nothing and generally creating lot's of sawdust!

Bill
