

# The Hardwood Herald

November 2008

The newsletter of the Florida West Coast Woodworkers Club, Inc.  
An organization of men and women who are devoted to increasing their skills in woodworking.

There were 28 members and 5 guests at the meeting tonight.

## President's Message

As I sit here contemplating this morning and in whose hands our glorious country will be held, it felt good to do my part but now, like many of us, we hold our breath in anticipation for better days ahead.

On a lighter vein, I have made a tour of my workshop (formerly garage) and find several things I have been contemplating for the auction on November 13th -- actually, quite honestly, I have contemplated these items -- or shall I call them friends -- for a couple of years. Now, I feel it is time to share them with someone who might need them. So, dear friends now is the time to part -- on to possibly a bigger workshop, a new friend, and a few dollars in our treasury. Are some of you in the same fix as I am? Share a friend!

Many of us believe that this year has been a good year for the club. In attending the past meetings, I find myself looking for my old friends as well as the new members. If any of you feel hurt over some issue, or are not feeling up to par, give me a call. We miss our old friends and something cannot be fixed if you don't share it with us. The diversity of membership makes for a great group. We are a great group and we have a few evenings coming up where we can share a few laughs, new ideas, and challenges.

Looking forward to seeing you at the November meeting.

Keeping making sawdust! John
